

## THE WORKER MUST BE WELL

In these days of sharp competition everyone who works should be kept up to the highest pitch of efficiency. The rewards of business life go to the clearest thinkers, to the men and women who know and do things better than other people.

But who can do his best work when the health is impaired, when the appetite fails to demand the food necessary to sustain the body, when strength is lacking and ambition gone? Surely the part of wisdom is to begin at once to build up the body to its normal condition and this may be done more certainly by the use of

than any other medicine. It checks hacking coughs, sharpens the appetite, aids digestion, enriches the blood, restores flesh to the emaciated, and renews health and vigor. It is so agreeable to the taste that its regular use is a pleasure. Get it at your druggist's and be sure you get STEARNS'—the genuine.

THE MORNING  
CABLE REPORTS

(Continued from Page One.)

OYSTER BAY, June 9.—Theodore Roosevelt yesterday issued a proclamation, addressed to the Republicans of the nation, in which he calls upon them, in the name of the great founders of the party, to repudiate the nomination of President Taft, if at the Chicago convention the President secures the majority of the votes, as he says it would be in defiance of all justice.

CHICAGO, June 9.—Representative McKinley, manager of the Taft campaign, states that nine-tenths of the protests filed by the Roosevelt supporters have been thrown out by the unanimous vote of the National committee. He predicts that Roosevelt will bolt the convention before the vote on the nomination is taken, taking this way of saving his face from the almost certain defeat that faces him.

CHICAGO, June 10.—Senator Dixon, manager for Roosevelt, declares that he is not going to quit the fight until after the contests have been decided one way or the other, contrary to a report which has been current. He may not quit then, he added and further asserted that the Taft men on the committee are planning to throw out the Roosevelt delegations from California, Washington and South Dakota. Missouri's delegation also hangs in the balance.

SEATTLE, June 8.—The lives of fifteen hundred people, miners, prospectors and the inhabitants of several Alaskan villages, are believed to be in imminent danger as the result of the sudden awakening into activity of three volcanoes in the Aleutian range. The volcanoes have long been dormant until very recently, when they gave evidences of activity, smoking from the summits. Now, all three are violently erupting, while the whole Alaska peninsula has been racked in a series of violent earthquakes.

Reports from Sitka are to the effect that ashes are falling there, borne for seven hundred miles with the wind. It is feared there that the inhabitants over a wide stretch of country will be wiped out, killed from suffocation in the falling ashes and the spreading sulphurous gas.

Available steamers at Sitka are being held in readiness to send on rescuing trips.

SEWARD, Alaska, June 10.—The coastwise steamer Dora reached here yesterday morning and reported having seen the eruption of the volcano Katmai. Her crew had a harrowing experience. For several hours, while the vessel crowded on all speed, she steamed through a hail of falling ashes and a mist of poisonous vapors from the volcano. At times it was almost impossible to see across the deck, so thick were the ashes, and the gases from the crater blinded the eyes and burned the throats of the seamen.

Wireless dispatches from the station at Kodiak fail to report any loss of life due to the eruption.

HAVANA, Cuba, June 9.—This city is in the hands of armed rioters, who are demanding the extermination of the negroes as the ones responsible for the landing of American marines on Cuban soil and for the possible intervention by the United States that may come. The streets are filled with the rioters, who are pursuing all negroes to be found, with shouts of "Lynch the niggers!" Several negroes have been seriously wounded in the fighting that has taken place and grave fears are felt lest the rioters turn from pursuing negroes and demolishing their houses to an attack upon the American residents.

President Gomez attempted to address the rioters yesterday, but was unable to secure a hearing. He later issued a proclamation, urging moderation and advising the mobs to disband. If this order be disobeyed, he threatens to resort to severities to restore the peace.

The police of the city have dispersed their clubs and have all been armed with machetes.

All the hotels are closed and their fronts protected by closed shutters. Further violence is feared today.

WASHINGTON, June 10.—Compelled to act promptly by the report of further disorders in Havana and the apparent certainty of a race war in Cuba, the state department yesterday through the navy department ordered Admiral Osterhaus to start at once for Key West and make all possible speed. He was instructed to take two battleships and be prepared to act promptly.

EL PASO, Texas, June 10.—Word has been received here that General Blanquet, with a force of federal cavalry, yesterday met and defeated a

force of insurgents under General Campa and Arguendo some distance east of this city. The fight was a hot one and lasted several hours. No report of the losses has been received.

TORREON, Mexico, June 10.—General Enrile, recently deposed as the financial executive of the revolution, yesterday afternoon as he was preparing to flee from the city. Officials of the Mexican government and his enemies declare that he has been found to have embezzled large sums of money.

LOS ANGELES, June 9.—District Attorney Fredericks announced that he will try Clarence Darrow on the other indictments brought against him in connection with the McNamara bribery charges, for which there is sufficient evidence, if the present trial fails to bring a conviction.

SAN QUENTIN, California, June 10.—In a bloody revolt against their guards, in which one of the prisoners was killed, a number of the inmates of the prison here rebelled yesterday and refused their food, declaring they would starve before they would again eat the "stuff" the prison authorities served them.

The grub strike broke out at noon and before the riot could be quelled one of the guards had shot down and killed a prisoner and two long term men had been desperately wounded. One of the guards was severely injured by a flying pepper canister, which struck him on the head and knocked him senseless.

The rioters broke out of the mess-hall and into the kitchens, which adjoin, demanding better food. The cooks and trusties aided the guards and turned the jets from the steam pipes used for washing the dishes into the faces of the mob, and drove it back into the eating room, where the guards subdued it.

By far the major portion of the 1900 prisoners were not involved in the demonstration.

far as anyone else's on board.

Passing out on deck one afternoon, our eyes were privileged to feast upon one of the most brilliant and complete rainbows it had ever been our lot to behold. It hung immediately across the stern of our vessel, so vivid in color as to reflect itself in a second bow across the sky at some little distance away. Was this another rainbow of promise? Then there were the usual games and pastimes. The old and young, wealthy and not so well to do, all participated in the events of the day; in fact, it seemed as though we were all one big family.

An Eventful Sunday. Religious service, after the Church of England formula, is the customary thing on shipboard. This was modified or varied in our case, due to the fact that there were counted among our fellow passengers the names of several ministers of other denominations. By courtesy of the ship's commander, the morning service had been assigned to Dr. Webster, pastor of Madison Avenue Presbyterian church, New York. The learned doctor Presbyterianized the Church of England ritual sufficiently to make it fit in for all.

The writer was privileged to take some part, while Dr. Thomas Hall, one of the professors of the Union Theological Seminary, New York, son of the late Dr. John Hall, also of New York, delivered a splendid and telling address. Dr. Hall is well acquainted with the Army, and, as I found out in conversation with him later, is a strong believer in our methods as well as a staunch supporter of our cause. He was most cordial, as was also Dr. Webster. Little did we think while sitting together after dinner that night, exchanging views upon various topics and with all serene around us, that just at that particular time the Titanic received its death blow, the large majority of her precious passengers being hurled to cold, icy, watery graves. Alas for the uncertainty of life! Who of us can tell when, whence and how death will reach us?

The Week in Honolulu.

As intimated previously, this is written within one week of the steamer's arrival, and what a busy week it has been! First there were the inspections of the Divisional office, the Reading-room and Hotel for Men and the Home for Women and Children. Of these, however, more later.

Second, there was the public welcome meeting, during which eleven souls sought Christ, several being cases of a striking character.

Third, a visit was made to one of our country circuits, situated on what is known as the Ewa Plantation.

Fourth, according to arrangements the first Sabbath was spent in bringing the message of our work of salvation to the congregations of the leading churches of the city. The figures show progress. The officers appear to be in good spirits, and the press and public more friendly than

ever. Concerning these things, however, more later.

ATTENTION KNIGHTS OF  
PYTHIAS.

Tuesday, June 11, being a holiday, Mystic Lodge No. 2 will postpone its regular convention until Tuesday, June 18, a special meeting will be held on that date to confer the three ranks. All Knights are requested to attend.
